# LEWIS **TURNER.**

## ABOUT

A recent design graduate finishing with a 2:1. An aspiring designer, with experience working freelance. A keen interest for all things creative. My strengths within design are publishing, branding and development.

Skilled within the creative suite, specialising in InDesign, Illustrator and Photoshop. More recently branching out into Muse, Dreamweaver and Flash, to expand my creative skills. I have experience in a wide variety of projects, both digital and handmade. These have been for my degree course, self initiated and national competition briefs. Also working as a part time freelance designer, mostly within branding.

Outside of design, I am a sociable individual who enjoys being spontanious and active. I have six years experience working in a bar and restaurant.
